# HONEY BARREL BOURBON

**Straight bourbon whiskey finished in a  
Detroit honey barrel.**

Our Honey Bourbon is truly one of a kind, reflecting the unique environment it's made in each year. With weather, plants, and local flora changing annually, each batch has its own character. Thousands of dedicated worker bees gathered nectar from across Detroit to create the honey used in our Bourbon, adding a distinct sweetness that embodies the city itself. This bespoke process means each bottle captures the essence of Detroit in both flavor and spirit.

Crafted in the heart of the city, our Honey Bourbon is a true product of Detroit. From locally sourced honey to the hands that carefully distill each batch, every step honors the city's rich heritage of hard work and innovation. Bold, smooth, and undeniably Detroit—this is Bourbon with a story.
